

Site Supervisor (Civil)

Location

Vithhlapur, Ahmedabad (75 kms)

Industry

Industrial Infrastructure / Real Estate Development

Reports To

Projects Head / Sr. Engineer

Core Responsibilities

- **Site Execution:** Interpret engineering drawings and blueprints to guide construction teams.
- **Quality Control:** Inspect ongoing work to ensure it matches project specifications and identify/rectify structural or material errors.
- **Safety Enforcement:** Educate workers on safety protocols, enforce the use of PPE, and conduct regular hazard inspections.
- **Resource Management:** Coordinate the delivery, storage, and efficient use of construction materials, heavy machinery, and equipment.
- **Team Supervision:** Assign daily tasks to laborers and subcontractors, track attendance, and monitor overall productivity.
- **Reporting:** Maintain daily logs of progress, resource consumption, and potential delays to report to the Project Manager.

Key Requirements

- **Education:** A diploma or bachelor's degree in Civil Engineering or a related construction management discipline.
- **Experience:** Proven on-site experience (typically 3–5+ years) overseeing construction personnel and subcontractors.
- **Technical Skills:** Ability to read blueprints, utilize surveying/measuring tools, and use software like AutoCAD.
- **Soft Skills:** Exceptional leadership, conflict resolution, problem-solving, and communication abilities to act as a bridge between clients and the crew.
- **Certifications:** Current health and safety certifications (e.g., OSHA or local equivalent) and basic first-aid training
