

Sr. Engineer / Engineer / Assistant Engineer

Location

Vithhlapur, Sanand, Kadi

Industry

Industrial Infrastructure / Real Estate Development

Reports To

Directors / Projects Head

Key Responsibilities

- **Project Management:** Lead large-scale construction builds, ensuring all stages are completed on time, within budget, and to quality specifications.
- **Technical Design & Review:** Evaluate structural designs, perform complex engineering calculations, and review architectural blueprints.
- **Budgeting & Cost Estimation:** Prepare cost estimates, BOQ (Bill of Quantities), and manage resource allocations to drive cost-reducing procedures.
- **Compliance & Safety:** Enforce strict adherence to health, safety, and environmental guidelines.
- **Team Leadership:** Mentor and provide technical guidance to junior engineering staff on site.

Required Qualifications & Skills

- **Education:** Bachelor's or Master's degree in Civil Engineering or a closely related field.
- **Experience:** Typically 10 to 15+ years of progressive, hands-on experience in civil construction and site execution.
- **Soft Skills:** Exceptional leadership, problem-solving, and communication skills to coordinate with architects, contractors, and local authorities.

Core Software & Tools

- **Design & Analysis:** AutoCAD, Civil 3D, and relevant structural analysis programs.
- **Project Tracking:** MS Project, Primavera P6, and Microsoft Excel
